DETAILED ACTION

1. The request filed on 5/25/06 for Continued Examination (RCE) based on parent Application No. 09/752,139 is acceptable and an RCE has been established. An action on the RCE follows.
2. Claims 2-8, 10-15, 17, and 20 have been cancelled.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 9-11, 16, 18-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lynch (6,119,094) in view of Webber et al (5,021,953).

As per Claims 1.

Lynch et al ('094) discloses:

database containing inventory information, rate database and travel product information as part of an inventory and rate management system, see figure 1 (inventory data structure);

an interface between the travel product inventory and rate management system and a vacation package seller and the inventory and rate management system, see column 8, lines 56-65 or a component bundler, see figure 1 (set of low-priced alternatives).

Lynch et al ('094) further discloses the storage of travel discounts available to particular businesses, see column 2, lines 65-67, which is seen as a pricing rule, but is not specifically from the travel product supplier.

Webber et al ('953) teaches that the Airline Tariff Publishing Company supplies rule sets associated with flights as supplied by travel providers and the invented system reformats the rules for the benefit that they can be full automatically be used in determining flight itineraries.

As per Claim 9.

Lynch et al ('094) discloses:

Art Unit: 3639

providing a bulk inventory and rate database as part of an inventory and rate management system, see figure 1 (inventory data structure) and column 2, lines 6-13;

loading the bulk inventory and rate database with inventory and rate information for a plurality of individual travel products provided by a plurality of travel suppliers, see figure 3 (108), column 2, lines 6-13 and column 4, lines 46-61;

selectively choosing and bundling at least two of the plurality of individual travel products into a vacation package, see figure 1 (set of low priced alternatives), and column 4, line 42 – column 5, line 6;

selecting the vacation package through an interface between the vacation package seller and the inventory and rate management system, see column 8, lines 59-65; and

Lynch et al ('094) further discloses the storage of travel discounts available to particular businesses, see column 2, lines 65-67, which is seen as a pricing rule, but is not specifically from the travel product supplier.

Webber et al ('953) teaches that the Airline Tariff Publishing Company supplies rule sets associated with flights as supplied by travel providers and the invented system reformats the rules for the benefit that they can be full automatically be used in determining flight itineraries.

As per Claim 10, 18.

Lynch et al (094) further discloses the bundling is performed by a dynamic component at the time when the vacation package seller performs the step of selecting the vacation package, see column 7, line 8 – column 8, line 65.

As per Claims 11, 19.

Lynch et al (094) further discloses the bundling is performed prior to the time when the vacation package seller performs the step of selecting the vacation package, see column 1, lines 22-34.

As per Claim 16.

Lynch et al (094) discloses:

providing a bulk inventory, travel product information and rate database as part of an inventory and rate management system, see figure 1 (inventory data structure) and column 2, lines 6-13;

combining at least two of the plurality of individual travel products into a vacation package, see figure 1 (set of low-priced alternatives);

selectively assessing the vacation package through an interface between a vacation package seller and the inventory and rate management system, see column 8, lines 56-65;

loading the bulk inventory and rate database with inventory and rate information related to the travel products supplied by each of the plurality of travel product suppliers, wherein the inventory and rate information contained in the bulk inventory and rate database includes rules from the travel product suppliers regarding availability and pricing that permit the travel product and rate inventory management system to allocate

Art Unit: 3639

inventory and determine pricing for individual travel products, see figure 3 (108), column 2, lines 6-13, and column 4, lines 46-61; and

reserving the vacation package through the interface to the inventory and rate management system, see column 8, lines 59-65.

Lynch et al ('094) further discloses the storage of travel discounts available to particular businesses, see column 2, lines 65-67, which is seen as a pricing rule, but is not specifically from the travel product supplier.

Webber et al ('953) teaches that the Airline Tariff Publishing Company supplies rule sets associated with flights as supplied by travel providers and the invented system reformats the rules for the benefit that they can be full automatically be used in determining flight itineraries.
